About us

Since 1947, WEICON has been producing speciality products for the industry in Germany. Our range of products includes special adhesives and sealants, technical sprays and high-performance assembly pastes and greases for all areas of industry - from production over repair up to maintenance. Besides the chemical products, we develop and distribute high-quality stripping tools under the brand WEICON TOOLS.

OUR ASPIRATION

We help you to optimise your processes!

- ✓ Our certified, user-friendly and easy-to-use products ensure resource-friendly and faster work processes for your employees.
- ✓ Free additional equipment facilitates the correct and resource-friendly usage of our products.
- ✓ Ergonomically shaped accessories ensure the correct and safe usage of our products.
- ✓ Thanks to the use of WEICON products, you can service, maintain and repair your machines and components. This saves costs, time and manpower.

OUR SERVICE

We offer individual service!

- ✓ We visit you at your company premises and train your employees on the right usage of our products.
- ✓ More than 135 employees highly trained in the field of adhesive technology are happy to help you with all application questions.
- ✓ In our numerous application videos on YouTube, your employees can watch step-by-step instructions how to use our products correctly anywhere and anytime.
- ✓ Our next day delivery service ensures unobstructed work flows within your company.

CERTIFICATES

American Bureau of Shipping

ABS, is one of the world's leading classification societies for ships, oil platforms and other maritime structures. Approval certificates for WEICON CBC and WEICON HB 300.

IMPA

IMPA (International Marine Purchasing Association) is an advocacy which promotes a close cooperation between buyers and suppliers in the maritime industry. The association has set itself the goal to improve the understanding between buyers and suppliers in the global maritime economy. In the past 37 years, the association has grown significantly and by today counts more than 700 members throughout the world. Many of our products can be found in the ISSA and IMPA catalogue.

ISSA

ISSA (International Shippers & Services Association) is an international association of nearly 2.000 ship suppliers worldwide. Meanwhile, members of ISSA supply more than 500 locations with equipment.

RINA

Certificate on the suitability of WEICON Plastic Metals and WEICON Repair Sticks for applications in the marine sector.

MED

The European Marine Equipment Directive MED is the main set of regulations on the subject of marine equipment. The certification verifies that the products meet fire safety standards tested in an accredited IMO/MED laboratory. Flex 310 M® FireSeal and Flex 310 M® ProSeal.

DNV

Approval certificates for WEICON Plastic Metals A, GL-S, Ceramic BL and SF for repairs on vessels.

DVGW

Test mark certificates for WEICONLOCK Anaerobic Adhesives/Sealants types; WEICONLOCK AN 302-43, AN 302-70, AN 305-72, AN 305-42, AN 305-77, and Thread Sealing Cord DF 175.

ISEGA

Certificates of Conformity for WEICON Ceramic BL, WEICON Flex 310 M® ProSeal, Flex 310 PU, Flex 310 M® Classic, Aqua-Flex, Contact VA 100 and VA 8312 as adhesives in the foodstuff technology.

WEICON Ceramic BL

For the coating of propeller shafts and any coatings in the engine room, rudder posts, gear boxes as well as for coating metal surfaces before or after repair.

WEICON Ceramic BL is liquid, brushable, filled with silicium carbide and zirconium silicate, temperature-resistant up to +180°C and resistant to chemicals. It offers extreme wear protection and high abrasion resistance.

WEICON Ceramic BL is particularly suited for the lining of heavily stressed pump housings, as wear protection for slide bearings, slides, funnels and pipes, and for the repair of castings, valves and blower fans.

The product can be used in machine and system construction, in apparatus engineering, and in many other industrial applications.

ELASTIC

Elastic adhesives and sealants are nowadays used in many areas of industrial production and assembly. They combine the advantages of adhesive bonding and sealing technology and are used wherever the elasticity and the sealing of a joint are the most important requirements.

ProSeal **NEW**

Suitable for maritime ventilation systems | for applications in sensitive areas and for room ventilation systems

Multi-purpose, permanently elastic, fast-curing and high-strength 1-C adhesive and sealant based on SMP. Neutral curing, entirely weather-resistant, very low emissions and odour as well as free of silicone, isocyanate and solvents.

Tested and approved for applications in food-related areas and for ventilation and air-conditioning systems in accordance with VDI 6022. Meets the requirements of the International Maritime Organisation IMO FTPC Parts 2+5.

AND SEALANTS

Black-Seal Special Silicone

Extremely resistant to oil and grease

WEICON Black-Seal Adhesive and Sealant is black, high-temperature-resistant (+280°C/+536°F), free of solvents, strong, oil-resistant, grease-resistant, pressure-resistant, resistant to ageing and extremely elastic (breaking elongation of approx. 500 %).

Black-Seal is suitable for bonding and sealing in applications where particularly high oil and grease resistance is required. WEICON Black-Seal can be used on gearbox, valve and casing covers, oil sumps, water pumps, gears and axles, flanges, tanks and containers, and in many other areas.

INNOVATION

Ergo Connect for Presspack

Flex 310 M® Classic

Suitable for universal use | ISEGA-certified

WEICON Flex 310 M Classic Adhesive and Sealant is strong, paintable (wet-on-wet), sandable, has outstanding ageing stability and good resistance to UV rays. It is resistant to fresh water and salt water and is free of silicone, isocyanate, halogens or solvents.

The product has an ISEGA certificate and can be used as an adhesive in food technology. Flex 310 M Classic is an elastic adhesive on MS polymer basis and is suitable for the bonding of metals, many plastics, ceramic, wood, glass and stone.

WEICON Flex 310 M Classic can be used in metal construction, tank and apparatus engineering, carriage, vehicle and container construction, ventilation and air conditioning systems, in the electrical industry, yacht and boat construction and in all applications where silicones or products containing silicones are not suitable.

ASSEMBLY PASTES

All kinds of influencing factors, e.g. moisture, temperature or friction, repeatedly lead to corrosion damage, seizure and wear on machines and installations.

Extensive repair and maintenance work at considerable costs are the consequence.

Especially under extreme conditions of application, e.g.

- ▶ high operation temperatures
- ▶ high pressure loads
- ▶ outdoor weather conditions

such consequences frequently occur.

HIGH-PERFORMANCE GREASES

Allround Lubricant

Even in the present "high-tech age" problems due to friction and wear are an issue in a lot of industrial sectors. Extensive repairs, longer downtimes, shorter maintenance intervals and shorter service lives of machines and equipment are the consequence and cause enormous costs every year.

Therefore, it is important to meet the requirements for long-term operational dependability of machines and equipment already in the development and construction phase.

AL-W

- ▶ extremely water-resistant
- ▶ high lubricating performance
- ▶ temperature-resistant from -25 °C to +80 °C (-13 °F to +176 °F)

Since 1967, we have been developing, producing and distributing a broad range of wire stripping tools. This includes cable knives, wire strippers, dismantling, multi-functional and special tools. Our tools have been developed for accurate, fast and safe stripping of all common cable types. They carry the GS seal of TÜV Nord and were developed with regard to work safety aspects.

The tools are specifically tailored to the needs of professional users, are found in both, skilled trades and industrial use, and are also suitable for domestic use.

Marine Emergency Repair Kits

For emergency repairs and maintenance works on board of ships, we developed three different Repair Kits. WEICON Marine Emergency Repair Kits are equipped with many different products that support you in various cases. The Kits cover most cases of offshore emergency repairs and maintenance works during long ways. The Repair Kits differ in the range of included products. Repair Kit 1 covers the most common emergency and maintenance cases. Kit 3 covers many different applications on board. The Repair Kits are suitable for all ships, where repairs and maintenance have to be done frequently.

As a service for our customers, WEICON provides the Marine Emergency Repair Kits with all necessary dangerous goods declarations.
