

LASER WELD CLEANER

NEW COMPUTER VISION

The laser machine created by stainless steel experts. Nitty-Gritty's Clinox laser weld cleaning is fast, precise, and electrolyte-free.

Now available with the AI powered computer vision system that provides optimal, accurate and replicable results on a large scale.

NITTY-GRITTY
make it shine

The AI system compares the laser-cleaning result to a predefined control sample and instructs the robot to repeat the process until the target outcome is achieved.
